For Students Entering 9th grade (current 8th and new to Campbell Hall):
Information from the high school office will be emailed to current 8th grade students on March 27, and to students new to Campbell Hall on April 17. Included will be an invitation to campus for a high school introduction and course selection evening on Monday, May 4, from 7:00-9:00pm. This evening, students and their parents will gather for a general information session, which will outline four-year planning, academic options for 9th grade, and general information about athletics, advisory, orientation, intersession, community service, college counseling, and more. After the general session, students and their parents will break into smaller groups. There, high school deans, college counselors, or principals will take the families through a scheduling “workshop” and will assist families with selecting electives and answering questions specific to their student.

For Students New to Campbell Hall 10th-12th grades:
Information from the high school office will be emailed on April 17. Included will be an invitation to campus for a 45-minute scheduling meeting in May where one of the high school deans, college counselors, or principals will meet both student and parent(s) to make course requests for next year. The email will also provide specific information and materials to help you prepare for your scheduling meeting.
