Dear High School Families,

We are delighted to welcome you and your child(ren) to the high school for the 2020-2021 school year. Please review the information below about math and world language placements.

The world language placement exam is on Tuesday, April 21.

World language placement testing is only required for students who seek a placement beyond the beginning level in their chosen world language. Students who do not have previous experience with the language they choose will select a beginning level placement. On the day of testing, please check in with the test proctors by 4:15 p.m. on the Upper High School Quad. Students should bring a pen or pencil. The test will take approximately 70 minutes.

The math placement exam is on Wednesday, April 22.

All incoming students are required to take a math placement test so we can ensure appropriate placement. It is strongly advised that students thoroughly review concepts in their current mathematics course prior to testing. On the day of testing, please check in with the test proctors by 4:15 p.m. on the Upper High School Quad. Students should bring two #2 pencils and a calculator. The test will take approximately 70 minutes.

While your child(ren) is(are) taking the math placement exam, we invite you to join us for a presentation about the secondary math program. The department chair, Shawn Watanabe, will present an overview of the courses offered in the secondary division and the process for placement at each grade level.

By Monday, April 13, please use the online form at https://tinyurl.com/hsplacement2020 to register your child for the math and language placement tests.

If you have any questions, please call the high school office at 818.505.5325.
