

**Design Challenge Engineering 2022-2023**  
**Session Details**

What is Design Challenge Engineering? It's a combination of project-based learning, design thinking and the engineering design process that develops the innovator's mindset through iteration. This session will incorporate learning and fun with potential real-world challenges. As students work through their engineering design challenges, they will have the opportunity to build problem-solving, teamwork, communication, and creative-thinking skills.
