

Robotics After-School Program - 2024-2025

Lego Robotics

Students build new and different projects each week as they graduate from simple machines, to motorized mechanisms, to robotics with basic programming. They'll learn all about engineering principles such as gears, wheels, axles, levers, and pulleys. This class is as fun as it is educational!

Session 1

Tuesdays, 3:00-4:00pm (8-week session)

September 10-October 29

Fee: \$280

Open to: Grade 1-2

This class will be taught by instructors from Parker Anderson Enrichment. For more specific information about this class, please contact Jan Weiss at weissja@campbellhall.org.
