Dear High School Families,

We are delighted to welcome you and your students to the high school for the 2023-24 school year. Please review the information below about math and world language placements.

**The world language placement exam will be taken ONLINE: Tuesday, April 18th at 4pm.**

World language placement testing is only required for students who seek a placement beyond the beginning level in their chosen world language. Students with prior experience in the chosen language who seek to enroll at the second level or higher should [CLICK HERE](#) and complete this form by Tuesday, April 11th. All placement tests will be conducted through Zoom; the link will be provided once registered for the test.

Students who do not have previous experience with the language they choose will enroll in the beginning-level course and will select the introductory course at their individual scheduling meetings.

For questions regarding student language placement, please contact Landry Tagliere, World Language Department Chair, at [tagliel@campbellhall.org](mailto:tagliel@campbellhall.org).

**The math placement exams will be taken AT HOME: Wednesday, April 19th or Thursday, April 20th.**

All students entering a math class above Algebra I must take a math placement exam and will be contacted by Math Department Chair, Shawn Watanabe, who will provide a PDF copy of the appropriate math placement exam. Exams will be taken for placement into Geometry, Algebra II, PreCalculus/Trigonometry, or Calculus. Students will have two days to complete the examination and return via email. Additional instructions will be sent directly to new families in mid-April.

For questions regarding student math placement, please contact Shawn Watanabe, Math Department Chair, at [watanas@campbellhall.org](mailto:watanas@campbellhall.org).
